**Applies to all ingredients:**

**OSHA 29 CFR 1200:**

OSHA has exempted ☐ drugs in a retail establishment which are packaged for sale to consumers ☐ (29 CFR 1900.1200 (b)(6)(v)).

**MSDS Author:**

George Sperber  
Director of Regulatory Affairs/Quality Assurance.

Re: Material Safety Data Sheets for All Textilease Medique Tablet Products.

OSHA has exempted "drugs in a retail establishment which are packaged for sale to consumers" (29 CFR 1900.1200 (b)(6)(v)). Accordingly all over-the-counter drugs were exempted from the point of packaging, since they are packaged prior to

reaching a retail establishment (53 FED.REG.29838-39 (August 8, 1988)). OSHA has further stated; "since these products are exempted, employers which package them for retail sale would not have to furnish MSDS to distributors receiving the product" (52 FED.REG.31862 (August 24, 1987); 53 FED.REG.29834 (August 8, 1988)).

Therefore over-the-counter drugs prepackaged for retail sale are exempt from the OSHA Hazard Communication Standard requirements (including the requirement for a MSDS) from the time of packaging regardless of the product's final physician form.
