**SKIN CONTACT:** Mechanical Skin irritation: Signs/symptoms may include abrasion, redness, pain, and itching.

**INHALATION:** Dust from cutting, grinding, sanding or machining may cause irritation of the respiratory system. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. Prolonged or repeated exposure may cause: Pneumoconiosis: Sign/symptoms may include persistent cough, breathlessness, chest pain, increased amounts of sputum, and changes in lung function tests.

**INGESTION:** No health effects are expected.

**SECTION 4 - FIRST AID MEASURES**

**EYE CONTACT:** Flush eyes with large amounts of water. If signs/symptoms persist, get medical attention.

**SKIN CONTACT:** Wash affected area with soap and water. If signs/symptoms develop, get medical attention.

**EXTINGUISHING MEDIA:** Material will not burn. Ordinary combustible material. Use fire extinguishers with class A extinguishing agents (e.g., water, foam).

**SPECIAL FIRE FIGHTING PROCEDURES:** Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA).

**UNUSUAL FIRE AND EXPLOSION HAZARDS:** Not applicable. None inherent in this product.

**Note:** See STABILITY AND REACTIVITY (SECTION 10) for hazardous combustion and thermal decomposition information.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

**Accidental Release Measures:** Not applicable. In the event of a release of this material, the user should determine if the release qualifies as reportable according to local, state, and federal regulations.

## SECTION 7 - HANDLING and STORAGE

**HANDLING:** For industrial or professional use only. Avoid breathing of dust created by sanding, grinding or machining. Avoid eye contact with dust or airborne particles. Damaged product can break apart during use and cause serious injury to face or eyes. Check product for damage such as cracks or nicks prior to use. Replace if damaged. Always wear eye and face protection when working at sanding or grinding operations or when near such operations. Sparks and particles flying from the product during sanding or grinding can cause injury and fire.

**STORAGE:** Store in a cool, dry place.

<b>EYE PROTECTION:</b>	Avoid eye contact. To minimize the risk of injury to face and eyes, always wear eye and face protection when working at sanding or grinding operations or when near such operations. The following eye protection(s) are recommended: Safety Glasses with side shields.
<b>SKIN PROTECTION:</b>	Avoid skin contact. Wear appropriate gloves to minimize risk of injury to skin from contact with dust or physical abrasion from grinding or sanding.
<b>RESPIRATORY PROTECTION:</b>	Avoid breathing of dust created by sanding, grinding or machining. Assess exposure concentrations of all materials involved in the work process. Consider material being abraded when determining the appropriate respiratory protection. Select and use appropriate respirators to prevent inhalation overexposure. Select one of the following NIOSH approved respirators based on airborne concentration of contaminants and in accordance with OSHA regulations: Half facepiece or fullface air-purifying respirator with N95 particulate filters. Consult the current 3M Respiratory Selection Guide for additional information or call 1-800-243-4630 for 3M technical assistance.
<b>ENGINEERING CONTROLS:</b>	Use with appropriate local exhaust ventilation. Provide appropriate local exhaust ventilation for sanding, grinding or machining. Provide ventilation adequate to control dust concentrations below recommended exposure limits and/or control dust. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below Occupational Exposure Limits and/or control dust, fume, or airborne particles. If ventilation is not adequate, use respiratory protection equipment.
